

# Sana Ahmed

📍 Hyderabad | 📞 +91 860299130 | ✉️ ahmedsana1125@gmail.com | 🔗 [sana-ahmed-25nov](#)

**Data Analyst | Data Science Enthusiast | Python | SQL | Power BI | AI/ML**

---

## Education

**12<sup>th</sup> Inter – Percentage: 75.5%**

Ryan International School , Raipur | 2020 – 2021

**Bachelor of Computer Applications (BCA) – Percentage: 80%**

Disha College, Raipur | 2021 – 2025

*Relevant Coursework: Database Management, Python, Data Structures, Statistics*

---

## Skills & Tools

### Technical Skills:

- Data Cleaning & Transformation, **Exploratory Data Analysis (EDA)**, **Python** (NumPy, Pandas, Matplotlib, Seaborn, BeautifulSoup), **SQL** (Joins, Aggregations, CTE, Window Functions), **PowerBI** (Dashboard Development, Reporting & Presenting Insights), **OpenCV**(Image, Video), Artificial Intelligence

### Tools:

- Python, Power BI, Excel, Jupyter Notebook, VS code, Git/GitHub, AI Tools

### Soft Skills:

- Confident Communication & Presentation, Problem Solving & Critical Thinking, Leadership & Team Collaboration, Data-Driven Decision Making, Time Management & Adaptability
- 

## Experience

### 1. Data Science Trainee | Edulumos | Oct 2025 – Nov 2025

- Gained hands-on experience in Python, statistics, Excel, data visualization, and machine learning.
- Worked with real-world datasets for data cleaning, analysis, and model development.
- Built predictive models and contributed to data-driven business insights.

### 2. Data Analyst Intern | Cognifyz Technologies | Nov 2025

- Analyzed real-world datasets using Python and SQL.
  - Created dashboards in Power BI and Excel.
  - Performed data cleaning, visualization, and KPI analysis.
- 

## Projects *(All project details and demos are available on LinkedIn)*

### • Different project in OpenCV (Python, OpenCV) | 10/2025-11/2025

1. *Paint application*
2. *Image Augmentation*
3. *Makeup*
4. *Object Color Replacement*
5. *Invisible Clock*

### • Different EDA project (Python, Numpy, Pandas, Beautiful soup, Matplotlib, Seaborn) | 8/2025 – 10/2025

1. *Streamlit Application – Flipkart Mobile Price Analysis*
2. *EDA on Different Dataset – Netflix data, Titanic Data, Student Performance, Employee Survey*

### • Different Data Analysis project (Excel, SQL, PowerBI) | 09/2025.

1. *Students Marks Analysis (EXCEL)*
  2. *Energy Consumption Analysis (SQL)*
  3. *Global Sales Analysis (Power BI Dashboard)*
- 

## Certifications

### 1. Data Science & AI Training | Disha College | Sep 2024 – Nov 2024

- Completed hands-on projects applying AI techniques to real-world datasets.
- Gained practical experience in data science concepts and exploratory analysis

### 2. Data Science Certification | Innomatics Research Lab | Apr 2025 – Present

- Coursework includes Python, Statistics, SQL, Power BI, Data Visualization, Machine Learning, and Model Deployment.
- Executed practical projects involving data cleaning, EDA, predictive modeling & interactive dashboard development.
